

## Aon Premium Funding

### Monthly payment option

The cost of purchasing insurance has led many businesses to look for ways to improve their cash flow when settling this bill.

We understand paying one large lump sum for your insurance premium does not suit everyone and we therefore offer our clients a flexible and convenient alternative.

Aon can help you by spreading these costs on a monthly basis through our Premium Funding payment option which enables both domestic and businesses to pay their insurance premiums in easy to manage monthly instalments.

#### How Premium Funding works

It's as easy as two steps:

1. Aon's preferred specialist Premium Financier pays your insurance premium on your behalf by the due date.
2. You then repay the loan facility in easy to manage monthly instalments.

The security for the loan is the policy itself and its proceeds - there's no other security required.

For more information, or if you would like a quote, please speak to your Aon broker or contact our in-house funding specialist:

#### Premium Funding Benefits

- Avoidance of one off premium payments
- A fixed interest rate
- Releases capital for alternative investments
- Credit costs are tax deductible
- Improves your cash flow to meet other expenses
- Assists financial planning and budgets
